## ABOUT ME

Passionate about application development, learning new programming languages or creating new tips to make work easier is part of my daily life. I like Coding full time even during rest times.

## SKILLS

Front-End: HTML, CSS, JavaScript, ReactJs, Redux, Bootstrap  
Back-end: Php, Node js  
DataBase: MySql

Embedded Systems: C/C++, Python, VHDL, Arduino

Artificial Intelligence: Machine Learning Techniques, Computer Vision

## TRAININGS

**Electroworks Center Gafsa -- 2021**

**Web Development**

**GoMyCode Gafsa -- 2021 (in progress)**

**FullStack Js**

## REALIZED PROJECTS

### Developping website for a training center

During my training at Electroworks center, i have build a website from frontEnd to Backend using HTML,CSS, Bootstrap, Php and MySql.

### DocPlanner Cloning

Using HTML and CSS and Bootstrap

### Shopping Card

Develop a Shopping Card using HTML, CSS and JavaScript

### Movie App

Use react js (hooks, and router) to build a movie app

### To Do List

Create a to do list application using React and redux

### Weather App

Use redux and API to create a weather application

## STUDIES

### Master Degree -- 2017/2020 -- National Engineering School of Sousse

Master of research in intelligent and communicating systems, specialty: Artificial Intelligence  
Key words: Machine learning, Image processing, Deep Learning, Python

### Engineering Degree -- 2013/2016 -- Higher Institute of Computer Science and Mathematics of Monastir

Engineering degree in applied in applied science and technology in electronics. Specialty: Microelectronics  
Key words: Power electronics, Signal processing, embedded systems

### Bachelor's Degree -- 2010/2013 -- Higher Institute of Computer Science and Mathematics of Monastir

Information technologies and telecommunications sciences. Specialty: Electronics and Computer Science
